

Technical Data Sheet

CORNER BEADS PVC

PLASTER CORNER BEADS PVC PLASTIC

PART 1: GENERAL INFORMATION

1.1 PRODUCT DESCRIPTION

BULL-BOND® CORNER BEADS (PVC) is a rustproof, high impact resistant non-kinking corner bead base structure. The design of the hole pattern in the flanges allows the stucco to flow through forming a solid layer giving the corner extra strength. Larger holes in the nailing flange make it easier to install when using stub nails.

1.2 BASIC USES:

- FOR CONCRETE AND BLOCK WALLS
- USE INTERIOR AND EXTERIOR

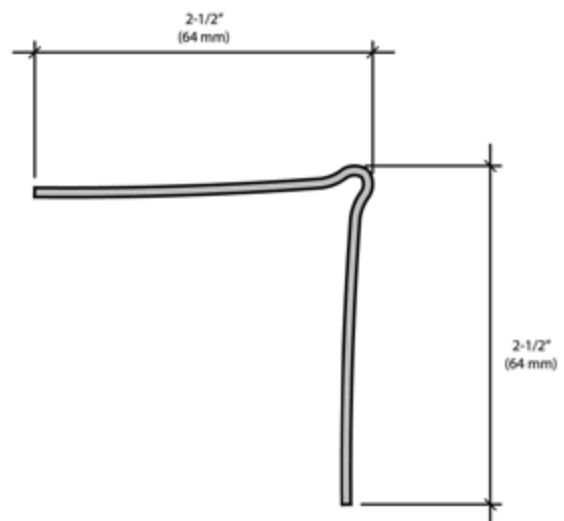

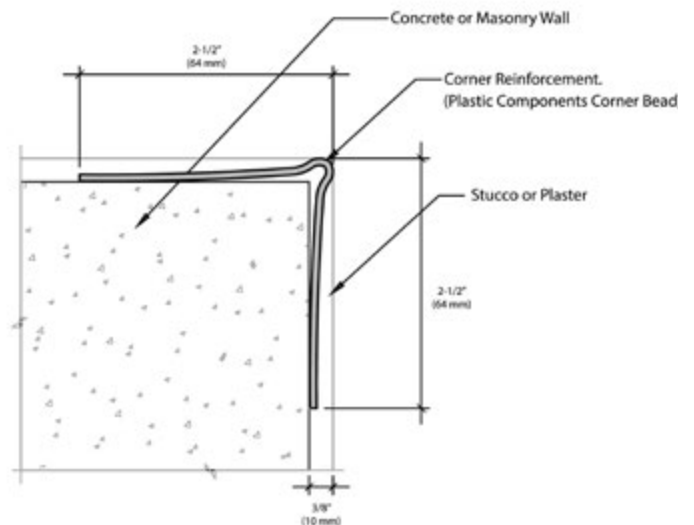

PART 2: TECHNICAL DATA

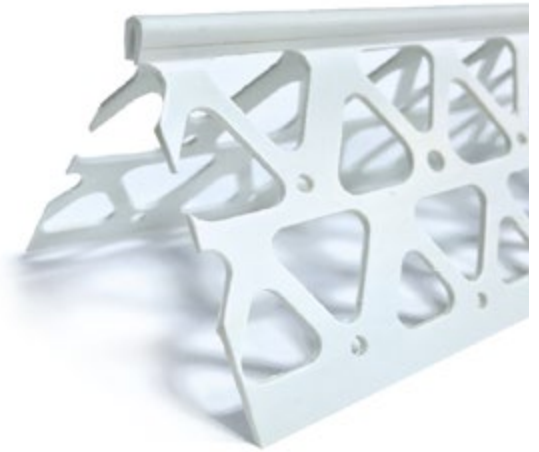

2.1 SPECIFICATION

PRODUCT CHARACTERISTICS	
BULL-BOND® CORNER BEADS	
COMPOSITION	PVC
COLOR	White
DIMENSION	2.5" X 2.5" X 8'
	2.5" X 2.5" X 10'

2.1 PACKAGING

Cardboard Boxes 100 pices per box

Road 175 Km. 0.2 Rio Cañas
Industrial Park Lot #35
Caguas, PR 00725
